Justice for Victims of Corrupt Foreign Officials - Case 2

From: [Global Affairs Canada](#)

Backgrounder

Canada remains concerned about the pervasiveness of significant corruption and violations of human rights in Venezuela, which are contributing to the serious crisis in that country.

Effective immediately, Canada is imposing sanctions pursuant to the Justice for Victims of Corrupt Foreign Officials Act against 19 Venezuelan officials, including President Nicolás Maduro. These individuals are responsible for, or complicit in, gross violations of internationally recognized human rights, have committed acts of significant corruption, or both. These measures are consistent with Canadian principles and values, and support Canada's international efforts to restore democracy in Venezuela.
